PROFILE OVERVIEW

As an experienced web developer and technical writer, I have a proven track record of delivering user-friendly and engaging websites. With a keen eye for detail and a passion for creative problem-solving, I work collaboratively to ensure that projects are executed to the highest standard

EXPERIENCE

Web Administrator (Shopify, SEO)

Fyre Skin Brand April 2023 - Present

- As a web administrator, I optimized the Shopify store and associated apps, resulting in an increase in sales. I also optimized the visibility of the Shopify store using SEO best practices, Google keyword planner, and Google Business.
- I designed and implemented a custom booking system, reducing booking errors.
- I managed ongoing website maintenance, troubleshooting issues, and collaborating closely with cross-functional teams. My excellent communication skills ensured alignment on project goals and priorities.

Contract Web Developer

WorkxieBillionaire 3 months

- Developed website prototype for WorkxieBillionaire (using HTML, CSS, JS, React)
- Contributed to the design and layout of the website, including the landing page. I also optimized the responsiveness of the website
- Designed and wrote the white paper for the Genesis AP of the WXB NFT project

Web Developer & SEO Strategist

EasyDrumming 5 months

- Developed website prototype for WorkxieBillionaire (using HTML, CSS, JS, React)
- Contributed to the design and layout of the website, including the landing page. I also optimized the responsiveness of the website
- Designed and wrote the white paper for the Genesis AP of the WXB NFT project

Web Development Coach

Contract 2021 - Present

- Conducted one-on-one coaching sessions to teach web development skills, including HTML, CSS, and JavaScript.
- Created customized learning plans based on individual student goals and learning styles, and provided feedback on coding projects.
